

Dear PC Daniel Gyori (#1309) Hamilton Police Service:

I am supplying you with an information. It contains criminal code violation information.

Due to the fact that a very large number of Police Officers are refusing to receive this information verbally, or otherwise, I would kindly like to remind you of code of conduct, specifically from the schedule in O. Reg. 268/10: GENERAL under Police Services Act, R.S.O. 1990, c. P.15, s2 (1) (c):

2 (1)(c) **Neglect of Duty**, in that he or she,

(vi) **fails to report a matter that it is his or her duty to report,**

(vii) **fails to report anything that he or she knows concerning a criminal or other charge,**

The following are likely words you may resonate with, or understand fully:

Police Officers have stated "I'd love to speak out, but I can't, I'd lose my job". If they whistle blow the system, the system is going to find a way to punish them.

"They'll get a desk job, you don't want a desk job".

"They can give you a job you're going to hate, they can make you quit."

"However, for the most part, you still will have a job. Police Officers and other Peace Officers are afraid to speak up because they are in the system."

"At what point do you speak out?" --- "When your freedoms are all gone?, when people are getting hurt like in the US?"

Police Officers have flatly stated that the RCMP is really corrupt, and mentioned that there is a cover up in the Nova Scotia murders. "There is no reasonable information and they are not telling us what they know."

"I will lose my certification if I speak out."

"If you are not on the same page as management, they will punish you."

"They can make your life so miserable, you just want to quit. A lot of us are on board."

"Career ending move." (by speaking out)

HOWEVER, you are needed and respectfully requested and respectfully demanded to investigate fully the following INFORMATION. In effect, this is a NOTICE OF DEMAND - to investigate the Premier & Lieutenant Governor of Ontario for criminal code violations including HOAX - Terrorism..

On the first page that follows, please take note of names of Police Officers who have been approached in some manner, and let it be known that they showed some form of contempt for this information.

The duties of the Police are to safeguard fundamental rights and freedoms as well as the human rights code - Police Services Act s1.2.

Violations needing protection - small list here - Domestic Terrorism, HOAX regarding Terrorism, the right to gaining of a livelihood, torture, abuse due to lockdowns that violate section 7.0.1 (2) of the Emergency Management and Civil Protection Act, not demonstrably justifying the original declaration of emergency with sworn under oath otherwise information, not protecting population from breathing in CO2 - toxic substance, isolation, suicides.

"Over 30 institutions and offices around the world have been queried through Freedom of Information requests for records containing proof that the alleged SARS-COV-2 virus in fact exists. The responses have yielded in total no records. Ontario public health officials have zero legitimate evidence to support their story of a "COVID-19 virus" let alone a "COVID-19" pandemic. The virus is unproven and purely theoretical. They have committed FRAUD on the population."

Currently, there is no declared emergency - terminated Jul 24, 2020. The Information is as follows:

To the holder of this document and to everyone in ONTARIO,

And to.... Toronto Police Officer Eugene Peplinski (#10778 div 52):

PC Talesnic (#5977 div 53), PC Snider (#10644 div 53), PC Balachorek (#99798 div 51)

I would like to bring to your attention violations of the criminal code, sections 21, 83.01 (1) (b), 83.231 (1), 122, 126, 128, 176, 180, 218, 219, 245, 269, 269.1, 346, 361, 380, 423, 429, 430.

PLEASE ENSURE EVERY POLICE OFFICER IN ONTARIO GETS THIS DOCUMENT.

NAMES OF ACCUSED:

The accused are Ontario Premier Doug Ford (DOB November 20, 1964), and the Ontario Lieutenant Governor Elizabeth Dowdeswell (DOB November 9, 1944).

ADDRESS OF ACCUSED:

Accused are employed in Toronto, ON, with offices at Queens Park, 111 Wellesley St W, M7A 1A1
The phone number of Premier Doug Ford is 416-325-1941.

The phone number of Lieutenant Governor Elizabeth Dowdeswell is 416-325-7780.

Numerous criminal code violations were committed by Ontario Premier Doug Ford, and the Ontario Lieutenant Governor Elizabeth Dowdeswell.

The offenses were committed at Queens Park.

The offenses were committed on March 17, 2020, and March 30, 2020 and all other days that the NON DEMONSTRABLY JUSTIFIED orders are in place - by failing to obey the Charter of Rights and Freedoms and the Human Rights Code, failing to obey s7.0.2(3) of Emergency Act.

The DECLARATION OF EMERGENCY was part of a UN and WHO system-wide training and simulation exercise of a deliberate release of a lethal respiratory pathogen. See documentation below. The actions taken are an inhumane act on a civilian population. Page 18 verifies this. Page 17 shows it was planned before September 2019. Page 19 shows only 1 death in Canada as of March 20, 2020. This is not a Pandemic.

"Over 30 institutions and offices around the world have been queried through Freedom of Information requests for records containing proof that the alleged SARS-COV-2 virus in fact exists. The responses have yielded in total no records. Ontario public health officials have zero legitimate evidence to support their story of a "COVID-19 virus" let alone a "COVID-19" pandemic. The virus is unproven and purely theoretical. They have committed FRAUD on the population."

PARTICULARS OF OFFENCE:

DATE: March 17, 2020 and March 30, 2020.

LOCATION: QUEENS Park, Toronto, Ontario.

OFFENCES ALLEGED:

RECKLESS ENDANGERMENT OF CHILDREN, CHILD ABUSE, ELDER ABUSE, HEALTHY PEOPLE ABUSE, INHUMANE ACTS ON CIVILIAN POPULATIONS, BODILY HARM, FAILING TO OBEY A STATUTE, TORTURE, DOMESTIC TERRORISM, HOAX regarding TERRORISM.

Section 21- Party to offense: The accused did unlawfully commit numerous offenses. In particular, violating section 126 Criminal Code Disobeying a Statute. The statute violated was section 7.0.2 (1) & (3) of the Emergency Management and Civil Protection Act. Emergency measures were not in accordance with the Canadian Charter of Rights and Freedoms. The measures violated section 1 of the Charter as there was never any sworn, under oath DEMONSTRABLY JUSTIFIED evidence or reasoning for an emergency declaration.

The measures violated virtually every aspect of section 2 of the Charter. In particular, one's ability to have an alternative opinion and/or belief due to overwhelming fear mongering and false facts regarding how hospitals and test centers were overloaded. Freedoms affected were freedom of peaceful assembly, freedom of association. The measures isolated virtually everyone in Ontario. A very significant right of the gaining a livelihood was violated on a large scale.

Sections 83.01 (1) (b) and 83.231 (1) - Domestic Terrorism, and HOAX regarding Terrorism - The accused did cause public intimidation with regards to its security including economic security, causing persons to do or refrain from doing any act, such as freedom of assembly, freedom of the right to the gaining of a livelihood, freedom to not breathe in ones own carbon dioxide, among other things. This recklessly endangered the lives of children, elderly, the vulnerable, and the healthy segment of the population. The accused also caused serious disruption and interference of essential services. The accused never supplied sworn records or sworn proof of the criteria and circumstances for a Declaration of Emergency and never disclosed which resources or which circumstances existed in section 7.0.1 (3) 2. It is deemed to be a HOAX without such sworn under oath DEMONSTRABLY JUSTIFIED proof required by section 1 of the Canadian Charter of Rights and Freedoms. They acted with intention and wanton and reckless disregard for the lives of the population, causing severe hardships, reckless child endangerment, and suicides. The report on the 129 day Declaration of Emergency did not divulge the criteria and circumstances for the declaration of Emergency nor was it ever divulged under oath to the population at any other point. It can easily be said that the resources in question in section 7.0.1 (3) 2 were staples or paper clips. The accused failed to disclose sworn records containing proof that the alleged SARS-COV-2 virus in fact exists.

"Deaths are included whether or not COVID-19 was determined to be a contributing or underlying cause of death as indicated in the iPHIS field Type of Death." (source = <https://files.ontario.ca/moh-covid-19-report-en-2020-06-26.pdf> page 14)

"There is no question that there will be a challenge to the coming administration in the arena of infectious diseases," Dr. Fauci said during a speech at Georgetown University (July 2017), adding, "the thing we're extraordinarily confident about is that we're going to see this in the next few years."

One example of a very significant essential service that was seriously disrupted and interfered with is access to a Justice of the Peace by any member of the population. This has happened. The "JP" office is closed or was closed to the population for over a month.

Section 122 - Breach of trust. The accused broke trust by disobeying statutes as stated herein, as well as committed fraud through debt increase - making children and teens and the unborn debt laden. No one has the authority to put people born 100 years from now into debt.

Section 126 - Disobeying a Statute. The accused disobeyed section 7.0.2 (1) & (3)(1) of the Emergency Management & Civil Protection Act, violating the Charter of Rights & Freedoms. The accused disobeyed the Constitution Act, 1982, in particular, sections 52, 1, 2, 6, 7, 8, 9, 12, 15, 26, 31. Accused obstructed religious/moral purpose gatherings, & gaining of a livelihood.

Section 128 - Misconduct. There are numerous reports in a variety of medium that CORONERS are involved with fraudulent death certificates labelling COVID for deaths completely unrelated to the death, or if there were co-morbidities. Accused neglected to DEMONSTRABLY JUSTIFY with proven, sworn under oath evidence. MEDIA reports cannot be used because many reports have been shown to be false by independent citizen journalists. Deaths were labelled COVID-19 for even gunshot deaths. Accused did not protect and were party in some form for autopsies to no longer be performed, never being able to prove nor verify cases. The so called virus was never isolated nor purified.

Section 176 - Obstructing religious services and gatherings for good or moral purposes. Emergency measures violated Charter section 2 (c), obstructing religious worship and/or gatherings for good or moral purposes.

Section 180 - Nuisance. By failing to discharge their duties to honour/obey the Charter of Rights and Freedoms, the accused recklessly endangered the lives of children, the elderly, and the healthy segment of the population. Suicides are up significantly. Homelessness, domestic abuse, loss of gaining a livelihood, and significant increase in drug abuse. The comfort of the public was severely affected by COVID-19 measures not DEMONSTRABLY JUSTIFIED. The health of the public was endangered.

Section 218 - The accused, through failing to act to safeguard and protect, did recklessly endanger the lives of children. Masks and social distancing damage children, actually almost everyone. Children have become docile on school buses and within schools. Carbon Dioxide, trapped within a mask will do this. Carbon Dioxide causes active rats/rodents/animals to slow down, then lie down, then die. CO₂ is listed as a TOXIC SUBSTANCE, item #74 of the Canadian Environmental Protection Act, 1999. Oxygen deprivation occurs as the mask becomes a CO₂ retention chamber. Children are berated by other children for not wearing a mask – even while exempt.

Section 219 - The accused did neglect and wantonly and recklessly neglected to hear/receive any voices or messages from the population that particular emergency measures and measures in general were harmful to the overall population – children, elderly, workers, nonworkers, etc. COVID-19 measures were not DEMONSTRABLY JUSTIFIED.

Section 245 - The population was forced to wear facemasks, forcing the population to breathe in a noxious/toxic substance. CO₂ is listed as a TOXIC SUBSTANCE, item #74 of the Canadian Environmental Protection Act, 1999.

Section 269 & 269.1 - TORTURE. Every element of TORTURE is satisfied as a result of the non DEMONSTRABLY JUSTIFIED measures, without any protection to the population. See PAGE 7 for TORTURE details. There is NO DEFENSE for TORTURE - even in a public emergency.

Section 346 - Extortion. Extortion was committed on the population by the NON DEMONSTRABLY JUSTIFIED measures.

Section 361 - False Pretence. The accused misrepresented fact based evidence, including the number of cases, the unreliable PCR test, case load of hospitals, which are known to be nearly empty. There is less than 1 person in intensive care per hospital in Ontario.

Section 380 - Fraud. The accused did not do anything to protect children and teens from extreme government debt. As well, they acted outside statutory authority to put babies born hundreds of

years out into debt for the lives of people who have lived and died many years before them. This constitutes being party to an offense of FRAUD. The measures were not DEMONSTRABLY JUSTIFIED to incur exorbitant costs on the adult population as well.

Section 423 - Intimidation, as there is coercion through threats of excessive fines for non compliance of these NON DEMONSTRABLY JUSTIFIED measures.

Section 429 (1) - Wilfully causing EMERGENCY - The accused did wilfully cause affected rights and freedoms to be violated on a grand scale by way of order, and action in support of orders.

Section 430 - Mischief. An extreme amount of property was interfered with in a variety of ways. Properties were rendered useless, inoperative or ineffective – businesses, churches, etc.

I will say:

The GPMB put out a document with a copyright date of 2019, with a released date of September 2019, telling of a UN and WHO planned simulation and training exercise for the release of a lethal respiratory pathogen - by September 2020. See GPMB portions of document below from page 18.

"Progress indicator(s) for September 2020"

"The United Nations (including WHO) conducts at least two system-wide training and simulation exercises, including one for covering the deliberate release of a lethal respiratory pathogen."

The emergency orders did not accompany any definitive DEMONSTRABLY JUSTIFIED information per the act to prevent, reduce or mitigate a danger of major proportions that was sworn under oath and easily verified, violating the most fundamental laws, violating fundamental justice.

On March 17, 2020, according the Government of Canada website showing "history" to that point, there was only one case, and one death. This is not a pandemic. See screenshot on page19.

The accused followed a path, without real justification and caused serious harm in virtually all areas of life. The accused caused far greater collateral damage and serious harm than the benefits from the emergency measures.

There was no "emergency" that required a Declaration of Emergency. There was no situation or impending situation that constituted a danger of major proportion. HOWEVER, THERE IS ONE NOW BECAUSE OF THE EMEGENCY MEASURES.

The accused recklessly endangered the lives of a significant portion of the population. The accused did create a danger of major proportion with the unjustified DECLARATION OF EMERGENCY.

There is never, or nearly never, any discussion of a healthy lifestyle, such as a natural food diet, etc. Almost nothing from officials are to strengthen the population. Severe panic was created.

5G

We need to discuss 5G. 5G affects the immune system.

The frequency that 5G is using is a very very high frequency. It is just below the classification of a weapon. They are using a frequency that is 10 times faster than 4G, and when it comes into connection with human bodies, it causes cell poisoning. Cell poisoning!! So our bodies try to fight the radiation that is in the form of cell poisoning because of the frequency of the 5G electromagnetic waves. What happens is that our bodies kick out the toxicity or toxins with some proteins and some DNA/RNA from our cells in the form of a chemical which is called a virus. Most diseases are excretions from cells that we are trying to pull out of our body, push out of our body. And it will head towards orifices and be excreted out of our body, expunged out of our body, our noses, our mouths.

5G frequencies and power which is 10 times more powerful than 4G is reacting adversely with human cells causing cells in our bodies to be poisoned and toxic, and our natural defense mechanism is pushing out that toxicity in the form of a virus. So what you're seeing - it's not corona virus, rather you're seeing cell poisoning manifesting with fluids, chemicals, viruses that the body is trying to dispose of because it's harmful to our physical body.

All that's occurring in the world is a reaction to human bodies to the electrification of the universe through 5G satellites, 5G towers, 5G cells that are being populated in major cities around the world. This is what is causing this pandemic.

This is the largest global cover-up in history for the impact on human beings based on technological advancements.

What is happening is not the corona virus, rather what is happening is the body is producing a virus to reduce the toxic poisoning. Therefore the virus that we have is really a measure or indication of our cells excreting toxins. This is what's killing people - toxicity of cells from 5G exposure. One of the first cities that rolled out ubiquitous blanket 5G, it was Wuhan China where this corona virus was supposedly meant to start in some fish market.

It started as a result of radio frequencies at a very high frequency creating radiation that was toxic to cells. That is why people were falling over dying in the streets etc. So they tried to cover it up. Because it has a flu type characteristic, they are using corona virus to hide the fact that people are dying from the 5G frequency.

Other major cities rolled it out.

It takes about six months for the harm to occur in a body. It takes this long because the damages are additive. Damage is occurring at every moment of 5G exposure.

It takes six months to have a physical impact on your body. Last year Wuhan was the first city, then Spain rolled out 5G, then Italy rolled out 5G. There's an oncoming of fatalities because of the level of 5G penetration rollout of 5G. Italy is the most densely populated with 5G and the population in Italy had a very high number of casualties.

The corona virus is not what is killing people. It is clearly categorically unequivocally and scientifically proven that the radio frequencies that we are being exposed to is what is killing people. Why do they allow it? Because of multiple agendas - primarily because 5G is the only network with the speed to handle the future. Where we are going rapidly is a world run by artificial intelligence.

A new global currency will be coming out.

There will be driverless cars and a number of other things that need 5G to run on.

They are happy to sacrifice millions of lives around the world.

The cruise ships were installed with 5G. There were people getting sick on cruise ships. Hospitals have 5G, major cities have 5G, airports have 5G, so these are places where people will be expected to get sick because of the extraordinary inordinate amount of radiation poisoning that they were exposed to.

We have had three pandemics in the last 120 years. The first pandemic was in 1918 - the Spanish flu. This is when they implemented radio waves globally and increased the electrification of our universe. Guess what happens - millions of people died 6 months later with a pandemic that they called the Spanish flu pandemic.

Roll on a number of years - World War II, just after that, another pandemic which was the implementation of radar equipment globally. Satellites went up into the Van Allen belt. They sent satellites to the Van Allen belt. When that was implemented, there was a number of deaths from a pandemic very shortly after.

In 1968 the Hong Kong flu - they rolled out another level of satellites in the Van Allen belt - over 100,000 satellites that were transmitting radar signals - electromagnetic radiation. We had radio waves first at the beginning of the century and then radar equipment along with telecommunication equipment via satellites. This caused pandemics that killed multiple millions of people. Now the roll out of 5G - and this is now impacting people's lives and killing people around the world and they are covering it up in the name of corona virus.

These are facts and please go study 5G.

Russia has had no fatalities in the area of corona virus because they have not implemented 5G on a public use yet. They've only implemented it for exclusive use by the military.

Hence why they (Russia) had no fatalities.

Just to prove a point further, you're seeing in the news now, that people without underlying health issues or compromised immune systems are falling sick and dying of corona. This makes no sense that the young are dying.

The reason they are dying is the radiation is has no prejudice - young or old - you will succumb to the power of radiation.

This is a global phenomenon that needs to be reversed IMMEDIATELY.

TORTURE ON THE CIVILIAN POPULATION

USING THE POWER AND CONTROL WHEEL, BIDERMAN'S CHART OF COERCION AND AMNESTY INTERNATIONAL REPORT ON TORTURE TO DEMONSTRATE ABUSE BY OUR GOVERNMENT AND THE FAILURE OF LAW ENFORCEMENT AGENCIES

POWER AND CONTROL WHEEL

*The **Power and Control Wheel** is a visual tool that is useful in understanding how tactics of abuse are used by abusers to gain and maintain **power and control** over their victims.*

BIDERMAN'S CHART OF COERCION

***Biderman's Chart of Coercion** is a tool designed to demonstrate and explain the coercive methods of stress manipulation used to torture prisoners of war.*

AMNESTY INTERNATIONAL REPORT ON TORTURE

The UN Convention Against Torture defines torture as "...the intentional infliction of severe physical or mental pain or suffering for purposes such as obtaining information or a confession, or punishing, intimidating or coercing someone." Torture is always illegal. "No exceptional circumstances whatsoever, whether a state of war or a threat of war, internal political instability or any other public emergency, may be invoked as a justification of torture."

The purpose of this document is to demonstrate how we are being abused/coerced and tortured by officials at all levels of government: federally, provincially and municipally, and how our law enforcement agencies are failing to protect its citizens, therefore committing misconduct.

ABUSE:

Using the power and control wheel (attached), it is quite evident that the government with its overreaching emergency measures is actually exhibiting 'power and control' and in doing so is in fact abusing its citizens.

In March it was determined by the powers that be that we needed to isolate and self-quarantine for 14-15 days to 'flatten to curve' to ensure that our health care facilities did not get overwhelmed. This included the lockdown where the majority of businesses and offices had to close down. No one could visit anyone and we had to adhere to strict social distancing procedures. We could go to a few select 'essential' businesses such as grocery stores, Walmart, Costco and other larger businesses, as long as we sanitized our hands, stood on circles and followed arrows. Small businesses were shuttered and none of us could get a haircut. Even our places of worship where one could find comfort were closed. It is now over six months and while things have begun to relax and open there are still stringent restrictions which are now at risk of returning to the early days of the lockdown.

Using the 'Power and Control Wheel', various aspects of the wheel will be addressed to demonstrate how we are being abused.

Using Isolation: From the beginning, we were told to isolate at home and have no contact with anyone that did not live with us. We not only had to maintain 6-foot social distancing but visiting or driving in the same car were verboten. Now we can do this but only if it is with our 'social circle of 10'. Nursing homes, group homes and people in the hospital are not allowed to have visitors. Our support systems have been decimated. Elderly people and palliative patients are dying alone. This is beyond abuse; it is cruel and heartless. This falls under 'controlling what someone does' and 'limiting outside involvement'. No one can get close enough to witness if there is abuse or neglect, or if people are mentally or emotionally stable. Of course, 'controlling where someone goes' falls under this category. At the beginning, we were not allowed to go to parks, travel out of town or out of the province. We are still not allowed to

travel to the US as the border is closed. Interestingly, 'what they read' (watch or listen to) is also a huge issue with extreme censorship silencing any voices that contradict or challenge WHO, CDC or Public Health.

In the future, it seems that there will be Isolation Facilities, and it is reported that there may be a secret non-voluntary isolation centre in Quebec, and as well as a facility in Alberta for children. We know that Trudeau has given the Premier money for an isolation facility in Toronto.

While searching for information on the topic of isolation, the following information was discovered.

California Civil Rights Attorney Leigh Dundas published a [video on Facebook](#) this week to show the devastating consequences of isolating children and forcing them to practice "social distancing" at places like school.

Here are some lesser known facts about social distancing and isolation:

- *It was developed 70 years ago by the CIA to break down enemies of state.*
- *It is the equivalent of smoking 15 cigarettes a day AND being an alcoholic.*
- *It doubles the risk of death, and destroys the part of the brain responsible for learning.*

She pointed out that according to the statistics and the CDC:

- *A child's risk of dying from COVID is 0.0%, per the CDC.*
- *No child has passed on COVID to a family member or third party (they do not transmit).*

She goes on to explain the historical origins of practicing Social Distancing, and how the technique was developed by the CIA to torture "enemies of the state."

<https://healthimpactnews.com/2020/children-have-0-00-chance-of-dying-from-covid-but-are-harmed-for-life-by-social-distancing-which-has-its-roots-in-cia-torture-techniques/>

Using Economic Abuse: 'Preventing someone from working'. With the closure of offices, schools and small businesses, economic issues have affected a large percentage of citizens. Businesses and offices closing have caused economic hardship in terms of revenue as well as employees being laid off or losing their jobs. The fact that schools were closed affected one's ability to work even if they had a job since they were now responsible for basically homeschooling their children. Daycare centres were also closed, and with self-isolation models it was nearly impossible to access child care services. With all the loss of income, people had no choice but to apply for CERB and other benefits from the government (basically welfare), 'making them ask for money' and 'giving them an allowance'. It is very interesting that government employees (federally, provincially and municipally) have continued to get their pay check even though they have been working reduced hours from home. Some doctors are able to continue receiving a pay check even though they do not have to physically see any patients or perform physical examinations. Teachers have continued to be paid. No economic hardship it seems. One wonders if those that have not lost economically are the ones filling out the surveys in favour of more restrictions.

Using Coercion & Threats: One statement that is repeated regularly is basically "If you do not comply, you could kill grandma." But it is an empty threat. They are killing countless elderly folk by isolating them. Most elderly are very lonely to begin with. Not being able to have visitors or emotional support from their families is throwing them into despair and hopelessness. Should they be unfortunate enough to contract Covid-19, apparently numerous DNR orders were issued without permission of the patient or family. As well, the loneliness and isolation are driving a number of elderly people to seek MAiD (Medical Assistance in Dying). As you can see, isolation is a bigger threat than the disease itself.

However, a real and present threat is the excessive fines that are threatened if we do not comply with mask wearing, social distancing or gathering in groups larger than that mandated. If a church has more than the prescribed number of attendees, they are threatened with a substantial fine. If a business opened without permission then that business faced a huge fine and loss of licence. Even now, if Ontario medical doctors, veterinarians, and other medical professionals do not comply with their association's edicts, they risk losing their licence. In fact, if they even speak out against the excessive regulations and loss of civil liberties, they too will be shunned, fired and perhaps lose their licences. Sure sounds like communism.

Using Intimidation: It is intimidating to go to shops and services and be greeted with someone policing the entrances. "Do you have a mask?" For some reason, many of these people are very militant and disrespectful. It is quite stressful to go anywhere, especially if one does not know the routine for that particular establishment. To be talked down to and sometimes shouted at if one makes a mistake is very demeaning and degrading, even by fellow compatriots who treat everyone as if they are contaminated. The blame lies with the media and the health/government officials who have conditioned the masses to view everyone as a danger to them.

Using Emotional Abuse: 'Playing mind games.' What comes to mind is "Two weeks to flatten the curve." Then another time interval was suggested, and another. Then, it was, "We may never get back to normal unless we have a vaccine". "This is the new normal." "The second wave is coming and it will be worse than the first", absolutely stripping the population of any hope things will ever go back to 'normal'. Wearing the masks is so dehumanizing (literally) and following arrows around a store is humiliating, like a herd of cattle being led to the slaughter house. The Premier has also resorted to 'name calling' protestors "Yahoos" as well as berating teenagers at a pop-up car rally saying "They need to have their brains scanned." Because teenagers are largely unaffected by Covid, Mr. Ford referred to their elderly relatives and that the teens are not considering them, trying to make them 'feel bad about themselves' (guilt trip).

Using Children: As above, parents are living under the threat that if anyone in their family gets sick there is the chance that in the future their children will be forcefully removed from the home and taken to an isolation facility. There are already states that are trying to implement these measures. Children have not handled the Covid-19 situation very well. They are separated from their friends, peers, teachers and relatives. Even now as schools are open, they still must socially distance. As above, this will significantly impact children for many, many years, and some of these children may never recover.

Using Dominance: For sure we are all being treated like children. Decisions are being made "for our own good". Nobody asked us how we wanted to handle this 'crisis'. We were not given a choice. We are not given a choice to follow the rules. We have a choice but it could cost us a great deal and not many are willing to pay the price for freedom of thought, expression and speech. Our lives are being dictated by unelected health officials and elected officials who are answering to the unelected UN (WHO).

Minimising, Denying, Blaming: 'Making light of the abuse and not taking concerns seriously.' As our Premier says, "No one wants to open things up more than I do". That is not true. He still has a business and no loss of income. It seems there is no loss of freedom as well. But rarely does he address the effect this is having on our economy and the lives of the citizens. He does not quote the number of suicides, or the people that died of heart attacks because they were afraid to go to the ER or their 'non-essential' surgeries were cancelled. How about those who will not get their cancer diagnoses in time to save their lives due to lack of physical examinations and diagnostic imaging?

COERCION AND TORTURE:

For this section, the reader is referred to Amazing Polly's YouTube videos, "Is This Torture?" (<https://www.youtube.com/watch?v=3yk3xezML8Q>) and "Your Body is Their Weapon - We're all Patients Now" (<https://www.youtube.com/watch?v=jeVf8Bq1knk>). Certain aspects of these reports will be highlighted. (Also available on Bitchute - <https://www.bitchute.com/channel/ZofFQQoDoqYT/>)

In the video "Is This Torture", Amazing Polly submits evidence and examples comparing our situation to the study of torture & coercion on Prisoners of War. It becomes clear that what we are being put through with the virus response is a near perfect parallel to the Amnesty International definition of torture (attached)& Biderman's 'Chart of Coercion.'

As a reminder, *The UN Convention Against Torture defines torture as "...the intentional infliction of severe physical or mental pain or suffering for purposes such as obtaining information or a confession, or punishing, intimidating or coercing someone."* Torture is always illegal. "No exceptional circumstances whatsoever, whether a state of war or a threat of war, internal political instability or any other public emergency, may be invoked as a justification of torture."

And: **Biderman's Chart of Coercion** is a tool designed to demonstrate and explain the coercive methods of stress manipulation used to torture prisoners of war. (See below)

Biderman's Chart of Coercion

A tool designed to demonstrate and explain the coercive methods of stress manipulation used to torture prisoners of war. It has been applied to explain the coercive techniques used by perpetrators of domestic abuse.

This list directly reflects the original chart, it has not been changed to fit the domestic abuse context.

Method	Effect and Purpose	Variants
Isolation	Deprives victim of all social support of their ability to resist. Develops an intense concern with self (this could be home environment) Makes victim dependent.	Complete solitary confinement Complete or partial isolation Group Isolation
Monopolisation of Perception	Fixes attention upon immediate predicament. Eliminates information not in compliance with demands. Punishes independence and /or resistance.	Physical isolation Darkness or Bright light Restricted movement Monotonous Food
Humiliation and Degradation	Makes resistance more 'costly' than compliance. 'Animal Level' concerns.	Personal hygiene prevented Demeaning Punishments Insults and taunts Denial of Privacy
Exhaustion	Weakens mental and physical ability to resist.	Semi-Starvation Sleep deprivation Prolonged interrogation Overexertion
Threats	Creates anxiety and despair Outlines cost of non-compliance	Threats to kill Threats of abandonment/nonreturn Threats against family Vague Threats Mysterious changes of treatment.
Occasional indulgences	Positive motivation for compliance. Hinders adjustment to deprivation	Occasional favours Rewards for partial compliance Promises
Demonstrating Omnipotence	Suggests futility of resistance	Confrontation Showing complete control over victim's face
Forcing trivial demands	Develops habit of compliance	Enforcement of 'rules'

Amnesty International (1994)

Many of these Methods, Effects and Purposes, as well as Variants are self-explanatory and have been previously discussed or alluded to in length under the Power and Control Wheel.

Isolation has been discussed in detail. The so-called "14 days to flatten the curve" quarantine was in essence house arrest and solitary confinement. Certainly, the isolation of our elders and disabled with the ability to even visit amongst themselves was tantamount to torture. The United Nations Committee Against Torture stated that full isolation for 22–23 hours a day in super-maximum-security prisons is unacceptable. The United Nations have also banned the use of **solitary confinement** for longer than 15 days. To this day, when one travels to another country or may have been in contact with a person who tested positive, they must remain in isolation for at least 14 days, which means not leaving one's residence for any reason.

Monopolisation of Perception includes the incessant discussion of COVID-19 with daily briefings by the Premier and Health Team, the Prime Minister and practically non-stop coverage, designed to frighten the masses, so much so that all they seem able to discuss amongst themselves is the dreaded corona virus and depart with the new catch phrase "Keep Safe". Censorship is a huge part of this category with the public not being able to access any information other than what is being spoon-fed from mainstream media and government/health officials. Any mention of any treatments

is swiftly deleted from Twitter, Facebook and YouTube. As mentioned, if a medical professional or government official goes against the narrative, they are summarily disciplined and silenced.

Humiliation and Degradation: The mask and social distance 'Nazis' treat the public as if they are unruly children that need to be reigned in and disciplined. As well, there seems to be an extremely frightening trend where people who are caught without masks (even with exemptions) are being manhandled, beaten and arrested. There are many examples of humiliation and degradation. Going shopping has become an unpleasant experience and getting proper healthcare seems almost impossible.

Exhaustion: Life is so stressful that it is mentally and emotionally exhausting trying to get through the day and very difficult for many to get a good night's sleep with all the anxiety and worry about the future. For some, how they are going to pay the bills and not lose their house is a major stressor. No wonder the suicide rate is so high.

Threats: Society on the whole is living under a barrage of threats from all angles. The threat of the virus. The threat of losing one's livelihood and independence. The threat of fines for noncompliance. The threat of the 'new normal' with no hope of things returning to pre-COVID life. Perhaps the biggest threat is that of mandatory vaccines in the future or no school, no work, no travel, no healthcare and perhaps no access to finances with total control over us by the government.

Occasional Indulgences: Lockdown restrictions have been lifted somewhat and so people are starting to breathe a little easier. People are so grateful that things are lifted (such as being able to go to a restaurant or get a haircut) that they totally ignore the fact that we are still being deprived of our rights and freedoms such as freedom of movement. We still have to follow the arrows and stand on dots.

Demonstrating Omnipotence: WHO, CDC, Dr. Tam, Dr. Fauci, Dr. Birx, Bill Gates and various other Public Health officials are elevating themselves to near god-like status, making all the decisions for basically the whole world. They have all the answers. They cannot be criticized and no contrary advice is to be entertained. They will come up with a vaccine and save the world. As Bill Gates has declared, there will be no return to normal until the whole world is vaccinated.

Forcing Trivial Demands: Compliance and following the rules. That says it all. This is not a free-will choice. It is demanded or there will be severe consequences.

All the above constitute torture and so it is fairly easy to demonstrate that the COVID-19 lockdown measures fall under the definition of torture. As well, Amazing Polly demonstrates in "Your Body is Their Weapon – We're all Patients Now", that to be treated as if we are chronically ill is a form of torture. She refers to an article by Sam Vaknin, "The Body as a Torture Chamber" (Mental Health Matters - <https://mental-health-matters.com/the-body-as-a-torture-chamber/> May 20, 2010) and applies his arguments to what is happening with the pandemic response.

Dr. Vaknin compares the world of a chronically ill patient with their interactions with the medical system to being tortured and their own body is the device of torture. Polly believes that with the pandemic 'they' are capitalizing on the psychology of the doctor/patient relationship and making us all into patients and treating us accordingly. She believes this is another form of torture and should be against the Geneva Convention and any form of decency to treat someone who is not sick as if they are sick.

Some excerpts from the article by Dr. Vaknin:

In a nutshell, the terminally and chronically ill suffer from Complex Post-Traumatic Stress Disorder (PTSD). Their strong feelings of anxiety, guilt, and shame are also typical of victims of childhood abuse, torture, domestic violence, and rape.

Inevitably, in the aftermath of bodily trauma and protracted illness, the victims feel helpless and powerless. This loss of control over one's life and body is manifested physically in impotence, attention deficits, and insomnia. This is often exacerbated by the disbelief many patients encounter when they try to share their experiences, especially if they are unable to produce scars, or other "objective" proof of their ordeal.

Bystanders resent and shun the sick because they make them feel anxious. The ill threaten the healthy person's sense of security and much-needed belief in predictability, justice, and rule of natural law. The patients, on their part, do not believe that it is possible to effectively communicate to "outsiders" what they have been through. The torture chambers known as hospital wards are "another galaxy". This is how Auschwitz was described by the author K. Zetnik in his testimony in the Eichmann trial in Jerusalem in 1961.

Treating us all as if we are patients and asking us to behave as if we are contagious, broken and dangerous even though we are not sick causes our identities to fragment and which places us under at least low-grade stress and even

start to break under extreme psychological manipulation as well as all the other stressors. We are in survival mode and beginning to see each other as dangerous. It is dehumanizing and degrading. They are frightening people into thinking that if they do not behave things will be worse and so they become complicit and participate in the torture. Nothing is either safe or credible. We are dependent on a system that does not make any sense and is very precarious. Chronically ill people have to do what the doctors say because there are no alternatives. No one is offering a cure or even prevention. They are playing with our minds. First it was 15 days, then 30 days, then a little longer, maybe years, just wear a mask. This is the 'new normal'. You can shop at big box stores but not mom and pop shops. They release dangerous prisoners but arrest people for not being compliant with medical tyranny. And these are the same people that hold the keys to our freedom. This will break our minds. Treating healthy people as if they are chronically ill is tantamount to torture.

Another aspect of treating healthy people as if they are ill, they are deathly afraid of actually getting ill. Even a headache will trigger a number of intrusive measures causing extreme stress, and consequently they would be too fearful to mention it or get it checked out even if it becomes troublesome. If, heaven forbid, someone does end up having COVID, numerous people have stated they do not wish to be admitted to hospital or be put on a ventilator, and would rather die at home than in a hospital by themselves. People are terrified of going to Emergency for conditions that do require attention. This is a betrayal of our health care system.

MASK HEALTH RISKS:

With the mandatory mask mandates, the government is forcing people to put their lives at risk. Mask wearing has been demonstrated to decrease oxygen and increase CO2. The symptoms of carbon dioxide poisoning (hypercapnia/hypercarbia) include nausea, vomiting, dizziness, headache, rapid breathing, fast heart rate, and flushing, and severe cases may include confusion, convulsions and **loss of consciousness**, making it extremely dangerous to operate a vehicle while wearing a mask. A young woman recently fainted at work 15 minutes into her shift, and there are **NUMEROUS** complaints of headaches, anxiety and confusion from those who need to wear them on a regular basis. People are not supposed to be breathing in CO2. In fact, CO2 is used to euthanize rodents, etc. If carbon dioxide can kill a rat, can you imagine what harm mask wearing is doing to us?

CO2 (carbon dioxide) is listed as a **TOXIC SUBSTANCE** - item #74 - in the Canadian Environmental Protection Act (1999). Section 245 of the Canadian Criminal Code makes it a **criminal offense** to make someone breathe in CO2.

Case law against Michael's Hospital:

The Science and the Law had already decided in Ontario Canada in 2018 that masks that there is scant scientific evidence concerning asymptomatic transmission and greater harm per the case against Michael's Hospital forcing mandatory mask for nurses refusing to be vaccinated.

MOVING FORWARD:

Having argued and demonstrated using the various tools that we are in fact being tortured by all levels of our government, it is now imperative that **we call on law enforcement to investigate the criminal behaviour** of the Ontario Government as well as local municipalities. All the lockdown measures and mask mandates **MUST** be rescinded immediately and the Canadian Charter of Rights and Freedoms and the Ontario Human Rights Code honoured.

The State of Emergency ended at the end of July. This order was revoked July 24, 2020 (see 2020, c 17, s17, <https://www.ontario.ca/laws/regulation/200050>). The termination date of the emergency was July 29, 2020). However, the government has retained all extreme and extraordinary measures as if it was still in a state of emergency. In addition, according to Randy Hillier, MPP, Premier Doug Ford will not reveal who is a part of the COVID Command. The agenda, minutes or communications are hidden, and this unelected and unaccountable team is allowed to come up with all kinds of outrageous edicts without debate, discussion or vote. According to documentation on the website 'Stand Up Canada', declarations of emergency in every province failed to meet criteria and are in violation of the Emergency Management and Civil Protections Act (EMCPA) <https://standupcanada.ca/canada-wide-declarations-of-emergency/>

It is apparent that this 'virus' is a part of a global plan with a much bigger agenda. It is obvious that the majority of governments are in 'Lockstep' with each other. For information on this 'plandemic', please view the Plandemic documentaries (found at www.plandemicseries.com).

It is extremely disturbing to view parts of the world that are essentially in a Police State. If this 'lockstep' tyranny progresses as it appears to be, then it will not be long before we find ourselves in a police state in Canada. Quebec is already taking measures that indicate it is headed towards a police state.

WARNING: Should the Police not do their jobs and fail to protect us from our government, then each individual police officer will be held PRIVATELY LIABLE.

The following text is part of a legal document that is ready to be submitted to the courts.

Top officials like the Queen, Presidents or Prime Ministers, NO ONE has proof that corona virus SARS-CoV-2 causes COVID19. Proof requires the gold standard of medical testing called Koch's Postulates that isolate a suspected disease-causing agent. Freedom of information responses confirm there is NO record of isolating coronavirus SARS-CoV-2 anywhere. Instead, there is an abstract digitally created database virus.

The coronavirus SARS-CoV-2 test can only test for a sequence of RNA not a virus. CDC reported 9,200 people died in Canada with COVID19. 9,200 out of 38 million equals .00024% or LESS THAN 1/4 OF 1% comparable to a regular flu season. Not one province met conditions required to declare an emergency.

Without proof of COVID19 nor a reliable test, a regular flu season death rate, and unmet emergency conditions, COVID19 measures are NOT DEMONSTRABLY JUSTIFIED. This means top officials acted PRIVATELY, outside statutory authority, and are privately LIABLE.

As well, no actions by any Lieutenant Governor, Premier, Governor, Attorney General, Solicitor General, top Health Official, Mayor, Health Department, Chief of Police, etc., were DEMONSTRABLY JUSTIFIED. Actions were all fear based without fact-based evidence, illegal, unlawful, and nothing was sworn under oath.

From the Emergency Management and Civil Protection Act, section 7.0.2 (1) states: The purpose of making orders under this section is to promote the public good by protecting the health, safety and welfare of the people of Ontario in times of declared emergencies in a manner that is subject to the Canadian Charter of Rights and Freedoms.

From the CONSTITUTION ACT, 1982, PART I, CANADIAN CHARTER OF RIGHTS AND FREEDOMS, Section 52 states: (1) The Constitution of Canada is the supreme law of Canada, and any law that is inconsistent with the provisions of the Constitution is, to the extent of the inconsistency, of no force or effect.

Further: Sections 1 and then 2 of the Constitution Act 1982:

Section 1. The Canadian Charter of Rights and Freedoms guarantees the rights and freedoms set out in it subject only to such reasonable limits prescribed by law as can be demonstrably justified in a free and democratic society.

Section 2. Everyone has the following fundamental freedoms:

- (a) freedom of conscience and religion;
- (b) freedom of thought, belief, opinion and expression, including freedom of the press and other media of communication;
- (c) freedom of peaceful assembly; and
- (d) freedom of association.

A partial list of freedoms includes:

Section 6 (2) Every citizen of Canada and every person who has the status of a permanent resident of Canada has the right (b) to pursue the gaining of a livelihood in any province.

Section 9. Everyone has the right not to be arbitrarily detained or imprisoned. (like in your own home)

Section 12. Everyone has the right not to be subjected to any cruel and unusual treatment or punishment. (like treating healthy people guilty of being sick, guilty until proven innocent).

Section 26. The guarantee in this Charter of certain rights and freedoms shall not be construed as denying the existence of any other rights or freedoms that exist in Canada. (like being born free)

Section 31. Nothing in this Charter extends the legislative powers of any body or authority. (like the establishment operator's mask NAZI arbitrarily creating his or her own laws through the legislation they created in their head right there and then.)

Regarding the right to the gaining of a livelihood. Who lost income? who lost a livelihood? who lost a business? and who lost a loved one to SUICIDE because of the measures that did not fall within the Charter of Rights and Freedoms?

The Police Services Act reads as follows:

Section 1: Police services shall be provided throughout Ontario in accordance with the following principles:

Subsection 2. The importance of safeguarding the fundamental rights guaranteed by the Canadian Charter of Rights and Freedoms and the Human Rights Code.

Who was supposed to safeguard our freedoms? THE POLICE. Who had the DUTY? THE POLICE.

Again, the Emergency Management and Civil Protection Act, section 7.0.2 (1) states: The purpose of making orders under this section is to promote the public good by protecting the health, safety and welfare of the people of Ontario in times of declared emergencies in a manner that is subject to the Canadian Charter of Rights and Freedoms.

We would like to bring your attention to a Supreme Court of Canada case: Roncarelli v. Duplessis, [1959]. It was a landmark constitutional decision of the Supreme Court of Canada where the Court held that Maurice Duplessis, the Premier of Quebec, had overstepped his authority by revoking the liquor licence of a Jehovah's Witness. Justice Ivan Rand wrote in his often-quoted reasons that the unwritten constitutional principle of the "rule of law" meant no public official was above the law and so could neither suspend nor dispense it.

Briefly this ruling also gives remedy for the population to hold Police PRIVATELY LIABLE for acting outside of statutory authority. Each Police Officer was duty-bound to safeguard our freedoms, yet did not. Each Police Officer committed section 80 and 81 violations - MISCONDUCT. Each Police Officer disobeyed sections 1, 80, and 81 of the Police Services Act, and they failed to obey the Constitution Act 1982.

The Criminal Code, section 126 as follows: Disobeying a statute.... section 126 (1) Every person who, without lawful excuse, contravenes an Act of Parliament by intentionally doing anything that it forbids or by intentionally omitting to do anything that it requires to be done is, unless a punishment is expressly provided by law, guilty of (a) an indictable offence and liable to imprisonment for a term of not more than two years.

How about making people breathe in their own CARBON DIOXIDE, which is listed as a TOXIC SUBSTANCE, item #74 of the Canadian Environmental Protection Act, the Police should have been laying charges on anyone forcing the mask wearing as follows:

Section 245 of the criminal code: (1) Every person who administers or causes to be administered to any other person or causes any other person to take poison or any other destructive or noxious thing is guilty (a) of an indictable offence and liable to imprisonment for a term of not more than 14 years.....

The POLICE - by failing to do their duties acted outside of statutory authority - AND created an EMERGENCY = "emergency" means a situation or an impending situation that constitutes a danger of major proportions that could result in serious harm to persons or substantial damage to property and that is caused by the forces of nature, a disease or other health risk, an accident or an act whether intentional or otherwise;

Each Police Officer committed misconduct and committed criminal code offenses by failing to safeguard the Fundamental Rights and Freedoms and the Human Rights Code.

If you are a Police Officer and want to be seen as an HONEST POLICE OFFICER from this point on.... the principle of the "rule of law" meant no public official was above the law and so could neither suspend nor dispense it. Also, section 15 of the Charter states that there is equality of the law and equal benefit of the law. HONEST POLICE OFFICERS, you have the duty to detain, question, and even arrest your fellow and superior officers. If you don't, people will hold you privately liable, and the economic damages in North America is likely in the trillions of dollars, billions for sure, in Canada. There are people who are ready to hold you PRIVATELY LIABLE and even CITIZEN'S ARREST you.

Final thoughts: From the Emergency Management and Civil Protection Act, the definition of "emergency" is what the POLICE have allowed to actually happen - we are now in an emergency due to the DECLARED EMERGENCY...."emergency" means a situation or an impending situation that constitutes a danger of major proportions that could result in serious harm to persons or substantial damage to property and that is caused by the forces of nature, a disease or other health risk, an accident or an act whether intentional or otherwise.

Let this be clear to POLICE - Sections 7.0.1 (3) 1 i, and ii, and iii of the Emergency Management and Civil Protection Act was not "DEMONSTRABLY JUSTIFIED". All measures were not in a manner that was subject to the Charter and it was your DUTY to SAFEGUARD - and you did not.

The Declarations of Emergency were very likely a "simulation and training exercise". The Global Preparedness and Monitoring Board had stated the following Progress Indicators by September 2020 as follows: The United Nations (including WHO) conducts at least two system-wide training and simulation exercises, including one for covering the deliberate release of a lethal respiratory pathogen.

As well, the Government of Canada website only had 1 death and 1 case up to March 17, 2020 - neither of them sworn information under oath. One death and one case is not a PANDEMIC - it had to have been a training and simulation exercise.

Almost everybody is aware of empty hospitals and test centers, with videos proving the emptiness taken down. Many know about fraudulent death certificates, and you are pointed to section 128 of the criminal code for that. Start questioning CORONERS.

Another atrocity includes obstructing and preventing religious services, covered in section 176 of the Criminal Code.

Many Police Officers do not know who has the duty to safeguard our fundamental rights and freedoms especially when there were no DEMONSTRABLY JUSTIFIED orders. It is written in the Police Services Act that the Police have to safeguard the Charter of Rights and Freedoms and the Human Rights Code.

Police Officers have said that anyone who goes against the system will have their career shot. Are the Police Officers acting in good faith by not enforcing the law? NO, not at all, and they are PRIVATELY LIABLE for this lack of good faith as it is acting outside of statutory duties.

The RCMP is also responsible for crimes against the laws of Canada being committed. Currently there is a "crime in progress" with the measures of lockdown. These measures disobey several statutes, namely, The Constitution Act 1982, the Police Services Act, and especially the Emergency Management and Civil Protection Act, causing every Police Officer to commit MISCONDUCT as well as Criminal Code Offences - violations in the Police Services Act as well as Criminal Code violations by Police Officers.

Police Officers have stated "I'd love to speak out, but I can't, I'd lose my job". If they whistle-blow the system, the system is going to find a way to punish them. They'll get an unwanted desk job or a job they will hate in order to make them quit. Police Officers and other Peace Officers are afraid to speak up because they are "in the system" (basically a career-ending move). At what point do you speak out? When your freedoms are all gone? When people are getting hurt like in the US?" Police Officers don't trust the RCMP and have flatly stated that the RCMP is really corrupt; they mention that there is a cover-up in the Nova Scotia murders. "There is no reasonable information and they are not telling us what they know."

HONEST POLICE OFFICERS, you are encouraged to do your jobs and take out your colleagues using the criminal code to reset to HONESTY, INTEGRITY and FREEDOM. However, if you fail to protect us from this point on, you will be held CRIMINALLY and PRIVATELY LIABLE.

Torture

Torture and other cruel, inhuman or degrading treatment thrive behind closed doors. It must stop, and those responsible for authorizing and implementing it must be held accountable.

The UN Convention Against Torture defines torture as "...the intentional infliction of severe physical or mental pain or suffering for purposes such as obtaining information or a confession, or punishing, intimidating or coercing someone." Torture is always illegal. "No exceptional circumstances whatsoever, whether a state of war or a threat of war, internal political instability or any other public emergency, may be invoked as a justification of torture."

Abuse of prisoners doesn't have to be torture to be illegal. Cruel, inhuman, and degrading treatment (CID) is also illegal under international and Canadian law. CID includes any harsh or neglectful treatment that could damage a detainee's physical or mental health or any punishment intended to cause physical or mental pain or suffering, or to humiliate or degrade the person being punished.

While it is sometimes difficult to distinguish between torture and CID, there are two key differences. First, torture constitutes a more severe degree of pain or suffering. Second, torture is the result of a deliberate and purposeful act aimed at imposing great suffering, while CID could be the result of accident or neglect. Both torture and CID are illegal.

Amnesty International has campaigned against torture and CID for decades. Our campaigning helped lead to the Convention Against Torture and its Optional Protocol, and it has helped lead to most UN member states joining the Convention. We take action in support of those who have and those who continue to experience torture and CID. And we won't stop. We won't stop until torture is stopped.

A WORLD AT RISK

**Annual report on global preparedness
for health emergencies**

Global Preparedness Monitoring Board

September 2019

GPMB
GLOBAL PREPAREDNESS MONITORING BOARD

The United Nations must strengthen coordination mechanisms.

The Secretary-General of the United Nations, with WHO and United Nations Office for the Coordination of Humanitarian Affairs (OCHA), must strengthen coordination in different country, health and humanitarian emergency contexts, by ensuring clear United Nations systemwide roles and responsibilities; rapidly resetting preparedness and response strategies during health emergencies; and, enhancing United Nations system leadership for preparedness, including through routine simulation exercises. WHO should introduce an approach to mobilize the wider national, regional and international community at earlier stages of an outbreak, prior to a declaration of an IHR (2005) Public Health Emergency of International Concern.

Progress indicator(s) by September 2020

- The Secretary-General of the United Nations, with the Director-General of WHO and Under-Secretary-General for Humanitarian Affairs strengthens coordination and identifies clear roles and responsibilities and timely triggers for a coordinated United Nations systemwide response for health emergencies in different countries and different health and humanitarian emergency contexts.
- The United Nations (including WHO) conducts at least two system-wide training and simulation exercises, including one for covering the deliberate release of a lethal respiratory pathogen.
- WHO develops intermediate triggers to mobilize national, international and multilateral action early in outbreaks, to complement existing mechanisms for later and more advanced stages of an outbreak under the IHR (2005).
- The Secretary General of the United Nations convenes a high-level dialogue with health, security and foreign affairs officials to determine how the world can address the threat of a lethal respiratory pathogen pandemic, as well as for managing preparedness for disease outbreaks in complex, insecure contexts.

As an independent monitoring and advocacy body, the Global Preparedness Monitoring Board (GPMB) urges political action to prepare for and mitigate the effects of global health emergencies. Co-convened in May 2018 by the World Bank Group and the World Health Organization, the Board builds on the work of the Global Health Crises Task Force and Panel, created by the United Nations Secretary-General in the wake of the 2014-2016 Ebola epidemic. The Board works independently of all parties, including its co-conveners, to provide the most frank assessments and recommendations possible. The findings, interpretations, conclusions and opinions expressed in this report and by Board members represent their views only and not those of their organizations or of the co-conveners.

Violates freedom of the press, freedom of expression, free speech, security of the person, loss of liberty, etc. (Charter sections 2, 6, 7, etc)
 - j) CARBON DIOXIDE is a EUTHANIZING AGENT used to kill animals. The masks are a CO2 retention chamber, and children in particular are slowing down how they move and behave - just as rats do when exposed to CARBON DIOXIDE. This is reckless endangerment of children, elderly and all others. Criminal code section 218, 219, 245, etc. Child abuse, elder abuse, healthy people abuse.
 - k) Elderly are silently affected in an end of life situation without loved ones- CRUELTY s12 Charter.
 - l) CARBON DIOXIDE POISONING details.

You are only hurting yourself wearing the mask. You are re-breathing in your own waste, you are making particles of bacteria moistened inside of the mask, that you are now inhaling into your sinuses and getting into and behind your eyes, getting into your ears, into your throat, giving yourself strep infection, staph infection, and other problems . You are breathing in cloth particles, bleach particles, food coloring or whatever dyes they used, formaldehyde. You are harming your lungs by re-breathing your own carbon dioxide, you are decreasing your oxygen saturation levels, you won't be able to think very clear. There is nothing floating through the air killing people, there are no people die-ing on the street and we don't have any numbers to match the lie-ing numbers on the television.

Babies seeing mom or dad in a mask - how is that good for a baby? With children, on top of all just mentioned, a child cannot get a cue on the mothers or fathers emotions. This is severe child reckless endangerment.

The second you touch your mask, it should be replaced.

Can't mourn the dead, or care properly for loved ones. Suicide is up significantly.

Your body makes particles when you are healing. They are not contagious.
 - m) VIRUS never isolated and sworn under oath.
 - n) False media stories about hospitals and test centers overloaded. Numerous videos showing the false stories removed by YouTube and others. HIDDEN AGENDA needs to be investigated and stopped immediately.
 - o) CAMPS - Police are required to take notice and detain and question to get to the bottom of this. CAMPS were involved in ALDOLF HITLER times and must be taken seriously as well as shut down permanently. Treat the CAMPS issue as if there is a CRIME ABOUT TO BE COMMITTED. Start with the Lieutenant Governor and the Premier.

- p) Vaccines cause impaired blood flow causing micro vascular strokes. Damages are additive.
- q) 5G communication frequencies affect oxygen bonding - risking health and life. The original symptoms in early 2020 were that of an oxygen deprivation issue. 5G frequencies may have been responsible for that as people who were sick were in areas that had 5G. De-oxygenation of hemoglobin.
- r) TORTURE - the measures have all the elements of TORTURE, which is a criminal code offense 269.1. No defense for TORTURE even in a public emergency.
- s) The QUEEN is absent while laws are being violated.

4) Police duties:

Police Services Act, R.S.O. 1990, c. P.15

Roncarelli v Duplessis - Supreme Court precedence:

Roncarelli v. Duplessis, [1959] S.C.R. 121, was a landmark constitutional decision of the Supreme Court of Canada where the Court held that Maurice Duplessis, the premier of Quebec, had overstepped his authority by revoking the liquor licence of a Jehovah's Witness. **Justice Ivan Rand wrote in his often-quoted reasons that the unwritten constitutional principle of the "rule of law" meant no public official was above the law and so could neither suspend nor dispense it.**

Although Duplessis had authority under the relevant legislation, his decision was not based on any factors related to the operation of the licence but was made for unrelated reasons and so was held to be exercised arbitrarily and without good faith.[1]

Decision In a 6-3 decision, the Supreme Court of Canada reinstated the trial decision, holding that Duplessis wrongfully caused the revocation of Roncarelli's liquor licence. The six judges who sided

with Roncarelli used different legal reasoning to reach their decision. Three judges wrote that Duplessis had ordered the cancellation outside his authority as premier; two judges stated that although Duplessis had the power to order the cancellation, he had done so in bad faith; and the sixth **judge concluded the premier was not entitled to immunity as a public official.**

Roncarelli was awarded \$33,123.53 in damages as well as costs in the Court of Queen's Bench and the Supreme Court of Canada. Roncarelli's son, however, maintained that it was a significant moral victory in his father's struggle against the system.

A Supreme Court of Canada decision - Roncarelli vs. Duplessis, [1959], it was a landmark constitutional decision of **the Supreme Court of Canada where the Court held that Maurice Duplessis, the actual Premier of Quebec, had overstepped his authority by revoking the liquor license of a Jehovah's Witness. Current officials are stepping outside of statutory authority, big time, and are privately liable.** The Premier of Quebec, while he was in office, was held privately liable for acts done outside of his lawful authority. The act of Quebec Premier Maurice Duplessis through the instrumentality of the Commission brought about a breach of an implied public statutory duty toward Frank Roncarelli (a citizen); it was a gross abuse of legal power expressly intended to punish him for an act wholly irrelevant to the statute, a punishment which inflicted on him, as it was intended to do, the destruction of his economic life as a restaurant keeper within the province.
