example:

Section 21- Party to offense: did unlawfully commit numerous offenses. In particular, violating section 126 Criminal Code Disobeying a Statute. The statute violated was section 7.0.2 (1) & (3) of the Emergency Management and Civil Protection Act. Emergency measures were not in accordance with the Canadian Charter of Rights and Freedoms. The measures violated section 1 of the Charter as there was never any sworn, under oath DEMOSNTRABLY JUSTIFIED evidence or reasoning.

The measures violated virtually every aspect of section 2 of the Charter. In particular, one's ability to have an alternative opinion, belief due to overwhelming fear mongering and false facts regarding how hospitals and test centers were overloaded. Freedoms affected were freedom of peaceful assembly, freedom of association. The measures isolated virtually everyone in Ontario.

A very significant right of the gaining a livelihood was violated on a large scale.

Section 122 - Breach of trust. The accused broke trust by disobeying statutes as stated herein, as well as committed fraud through debt increase - making children and teens and the unborn debt laden.

The accused disobeyed the Constitution Act, 1982, in particular, sections 52, 1, 2, 6, 7, 9, 12, 15, 26, 31.

Section 128 - Misconduct. There are numerous reports in a variety of medium that CORONERS are involved with fraudulent death certificates labelling COVID for deaths completely unrelated to the death.
etc....

I will say:

Example....

The GPMB put out a document with a copyright date of 2019, with a released date of September 2019, telling of a UN and WHO planned simulation and training exercise for the release of a lethal respiratory pathogen - by September 2020.

"Progress indicator(s) for September 2020"

"The United Nations (including WHO) conducts at least two system-wide training and simulation exercises, including one for covering the deliberate release of a lethal respiratory pathogen."

The emergency orders did not accompany any definitive DEMONSTRABLY JUSTIFIED information that was sworn under oath and easily verified, violating the most fundament laws, violating fundament justice.

On March 17, 2020, according the Government of Canada website showing "history" to that point, there was only one case, and one death. This is not a pandemic.

The accused followed a path, without real justification and caused serious harm in virtually all areas of life.

There was no "emergency" that required a Declaration of Emergency. There was no situation or impending situation that constituted a danger of major proportion. HOWEVER, THERE IS ONE NOW BECAUSE OF THE EMEGENCY MEASURES.

The accused recklessly endangered the lives of a significant portion of the population.
